

To Whom It May Concern,

I have had the pleasure of working closely with Brett Gander during my tenure at Helmer Companies.

As my lead graphic artist, Brett's quality of work is exemplary. He handles multiple assignments and deadlines with ease and enthusiasm. Brett's high energy level and commitment to quality have made him a valuable asset to the Helmer organization. His design skills, coupled with a passion for creativity, often serve as an example that his team members and peers aspire to achieve. He is sought out by many members of our organization for assistance and support on our most difficult and challenging projects.

I believe Brett would do well in a variety of environments and I recommend him for any position that requires quality, creativity and a passion for excellence.

Sincerely,

Charles R. Riedhammer
Managing Editor
